Orange Antelopes, Bhopal

Project Assistance

Oct. 2023 – March 2024

- Participated in training sessions, coding exercises, and team projects, enhancing technical skills and collaboration
- Completed assigned tasks with attention to detail and met deadlines, contributing to overall project success.
- Adhered to company policies and maintained professional standards, with performance evaluated periodically to determine incentives.

Saksham Digital Technology, Bhopal

Java Developer

Sep. 2022 – Dec. 2022

- Developed and maintained Java-based applications, contributing to the design, coding, and testing phases to enhance functionality and performance.
- Collaborated with team members on projects, applied best practices in Java development, and gained experience in debugging, code reviews, and software development lifecycle.

PROJECTS

Khatabook | *Express js, Tailwind css, ejs, Nodejs, MongoDB*

April 2024 – July 2024

- Developed a full-stack web application with both frontend and backend.
- Launched a comprehensive secure login/logout feature that maintained user privacy and compliance with GDPR regulations; decreased user complaints related to data security.
- Create and Manage Hisaab: Users can create detailed accounts (Hisaab) with ease.
- Encrypted Entries: All Hisaab entries are encrypted for maximum security.

GET LINK | *Html, css, Javascript, Bootstrap, Node.js, MongoDB, Express*

Sept. 2023 – Jan. 2024

- Developed a full-stack web application for booking home services (e.g., electricians, plumbers) with user and service provider accounts.
- Designed and deployed a responsive front-end interface using HTML, CSS, and JavaScript; integrated with a robust back-end architecture built on Node.js and Express.js, enhancing user engagement.
- Integrated Google Maps API for location-based service provider search and real-time price estimates.
- Ensured a seamless user experience with robust authentication, data security, and user-friendly interface design.
